Arrowhead Game Studios
Stockholm, Sweden

December 14, 2023

Dear Hiring Manager,

I am writing to express my interest in the Fullstack Engineer position at Arrowhead Game Studios. I am currently located in Stockholm, working remotely for CSLAB (Computing Systems Laboratory, NTUA). I have earned my integrated Master's degree in Electrical and Computer Engineering from the National Technical University of Athens (ECE NTUA). With two years of professional experience as a Research Software Engineer at CSLab, I bring a robust foundation and practical expertise to your team.

My technical proficiency includes C++, web technologies (Angular, API development), and app development (desktop & mobile) using C# with databases like MySQL and SQLite.

In my role at CSLab, I contributed to diverse projects, honing my skills in software development. I excelled in solving complex problems, collaborating with teams, and delivering high-quality software solutions.

My adaptability shines through successful completion of various smaller projects for external clients. This demonstrates my ability to understand unique project requirements, meet tight deadlines, and communicate effectively.

I look forward to discussing how my skills align with your company's needs. Thank you for your time and consideration.

Best regards,

Aristotelis Vontzalidis
